The 7th Kent ENdoscopy Training course

on Endo-surgical Insight into Colorectal and Oesophageal Submucosal Space

10–12 Oct 2023, East Kent Hospitals University Foundation NHS Trust
Discovery Park, Sandwich, Kent & Barcroft Lab, Cambridge

Welcome

K.EN.T.

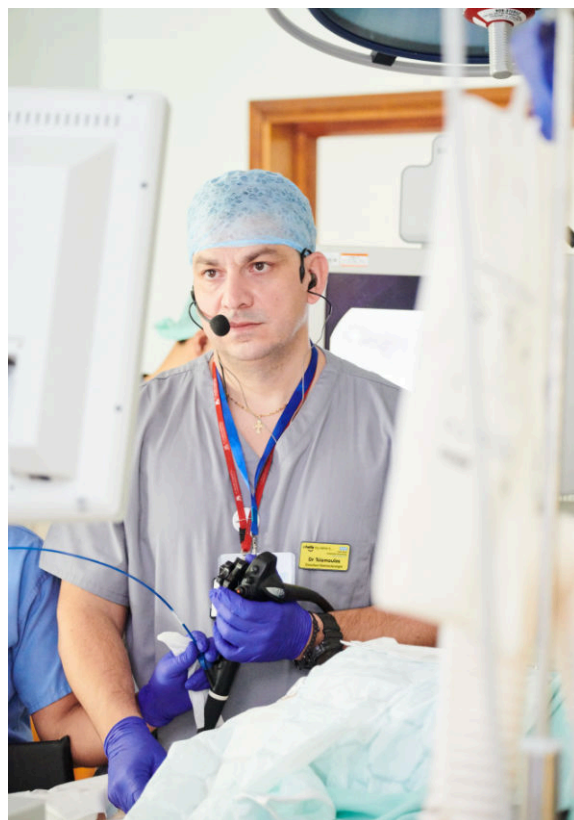

2023

Welcome introduction from the Course Convenor & Director

A warm welcome to the annual K.EN.T Endo-surgical Course 2023 a 3-day course which is taking place in Discovery Park, Sandwich, Kent on the 10th and 11th of October 2023, now in its 7th successful year. The hands-on training day will be held in the academic premises of Discovery Park, Sandwich on the 12th of October 2023.

This course has become an extremely popular and prestigious event amongst our UK gastroenterologists and surgeons, and has gone from strength-to-strength over the last 5 years. It is the only endoscopy-surgical training course dedicated to complex colorectal and oesophageal procedures (EMR, ESD/SSD, SCOPE, POEM, G-POEM, Z-POEM, STER, TAMIS), comprising sections with live lectures, live endoscopy cases and hands-on lab model training.

Our international faculty provides experience and insight of real-time endoluminal therapy, offering our worldwide delegates a sound understanding of technique and practice.

The internationally recognised faculty will again join our prestigious well-respected UK national faculty, and we look to surpass all expectations and hence establish a unique National and International training course.

This year, the K.EN.T Endo-surgical Course 2023 (10th to 12th of October 2023) will advocate an Immersive-Hybrid event (FIRST OF ITS KIND IN ENDOSCOPY IN UK) offering two separate platforms for delegates to join: (a) physical attendance/F2F access with a Virtual Reality experience, (b) the remote live streaming platform. This is an innovation in the field of endo-surgery training. Additionally, we will incorporate face-to-face training with hands-on experience on lab models on the 12th of October 2023, the ONLY training course which offers delegates a unique and fascinating experience.
